Landscaping Report from John Bowser

The addition of the new plants at the front entrance is complete. The sprinkler system needed a major realignment to get the water coverage extended over all of the plants. TSM has been inspecting the new plants regularly to make sure they are getting enough water.

Their monthly maintenance will begin in October and they will maintain the area twice a month during the summer months.

The first replacement of annual plants will take place in November. The winter plants will be replaced in May. Our goal is to get the front entrance looking good, it is our window to the world, and we want to keep a high level of interest in Bristol Lakes.

The Sign has been painted, now we must change a few plants so the LED lights will show it off.

Decorative Street Signs

Florida Mailbox Co. has plans to start installing our new street and Stop signs the Second week of October, (Weather permitting). Be on the lookout for this new addition
